6) i) The Last of Us: A game that came out on the 16th of June in 2013 on the PS3 it is a beautifully made game that could be ~~be~~ put up against the games of today 7 years later. (~~The world shurbery which is generated is probabty~~)

ii) Call of Duty: Warzone: This is a free to play battle Royale game. It supports up to 150 players a game. The impressive aspect is that the game runs fine with 150 people on the server.

iii) Guitar Hero: Old game but it was released with a solid piece of hardware that allowed you to take control of the guitar player. Made me want to play guitar.
